Entry Inspection

The Marina performs an entry inspection of all vessels obtaining slips in Dana Point Harbor East Basin. Each vessel must be seaworthy to navigate open waters and will be measured to determine maximum length overall including all extensions. Houseboats are not allowed.

Measuring Your Vessel

Your vessel will be measured from bow to stern, INCLUDING ALL EXTENSIONS SUCH AS BOW PULPIT, RAILING, ANCHOR, RUDDER, ENGINE, ETC. If your vessel exceeds the maximum overall length allowed in your assigned space, your contract may be terminated.
